DETAILED ACTION

Oath/Declaration

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It was not executed in accordance with either 37 CFR 1.66 or 1.68.
An inventor has not signed the oath or declaration.

Claim Objections

2. Claim 1 is objected to because of the following informalities: the forth line of the claim, " a second, thin planar electrode associated with on said side wall portion;.." is unclear and needs to be reworded for clarity. Appropriate correction is required.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art does not teach nor render obvious a level sensor with an electrode pair, a resistor coupled to each electrode, and a strobe line coupled to the first and second resistors.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The examiner has listed various references deemed relevant to the general state of the art of the present invention.

This application is in condition for allowance except for the following formal matters:

The oath or declaration needs to be signed and the language in claim one needs to be made clear.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
